

# What would your body say if it could talk to you? Come Discover how the touch of your hand can change your life!

Be the **FIRST** to experience the latest breakthrough in "Bio-Interactive Science Technology"!

Finally you can know exactly what your body **does** and **does not** need! **Exclusive!** Learn what your personal "Food Triggers" are—the foods in your diet that may be causing you to retain or gain weight, no matter how "healthy" the foods might be!

A food trigger is any food that creates an inappropriate shift in your blood sugar. Food triggers can also affect the amount of energy you have as well as your general sense of well-being.

**For a limited time you can have a VivaTouch™ Assessment for only \$25.00!**

The regular charge for this breakthrough technology will be \$30. (\$50 value)

Ask how **YOU** can host a *Discovery Evening* and get a VivaTouch™ Assessment for **FREE!**

VivaTouch™ is destined to revolutionize the way people eat and lose weight. It is a well known fact that a diet may work for one person but not for another. It has been frustrating to consumers to go from one diet to another trying to find the one that works for them. Now VivaTRU has the unique and exclusive protocol to help each person know his or her own specific "food triggers."

If you are one of the people who are searching to learn your specific needs without having to go to medical practitioners for expensive tests—most of which are not able to accurately assess nutritional needs until they are chronic, then VivaTouch™ is the answer to your search!

Thanks to a remarkable scientific breakthrough, VivaTouch™ is specifically able to identify your nutritional needs and can also identify foods that your body reacts poorly to. The Bio-Interactive Science used in the VivaTouch™ technology makes it possible to communicate directly with your body. Your body does the talking and Viva-Touch™ records the conversation and prints the results. This meaningful report is easy to understand and provides information that will assist you in making the right choices, choices that your body is asking for!

**It's New and it's Exciting .... And it's got EVERYONE TALKING!**

I am Stacey Lemire, a local massage therapist and a faculty member of the Lauterstein-Conway Massage School in Austin. I have had my own journey to **Great Health!** and I look forward to *empowering you to TAKE CHARGE OF YOUR LIFE!* Find out more about me and my other wellness services by going to [www.HealingTouchTherapies.com](http://www.HealingTouchTherapies.com)
